What are interest lists?

Interest lists are like waiting lists for programs that provide long-term supports and services. If you need help with daily living, these programs can help. Because there is so much need for these programs, you have to wait on an interest list until space in the program becomes available.

Are you guaranteed help if you join an interest list?

No. Joining an interest list doesn't guarantee that you'll get help from that program. When you get to the top of the list, you'll be evaluated to see if the program meets your needs. You should review each program carefully and only join interest lists for programs that you think are a good fit.

Who can join interest lists?

Interest lists are open to everyone. You can join for yourself or for someone else. All you need is an Interest List ID. You can create one at [YourTexasBenefits.com](https://www.yourtexasbenefits.com).
